

Index to Volume 18 (1998)

Authors and titles

- Analysis of economic networks: geographical information systems as a visualization tool (Benenson *et al.*), 117-35
- Apan, A. A. and Peterson, J. A., Probing tropical deforestation: the use of GIS and statistical analysis of georeferenced data, 137-52
- Archibold, O. W. *et al.*, Winter mortality risk for American ginseng (*Panax quinquefolium*) in Saskatchewan, 375-95
- Attitudes of environmental management personnel involved in surface coal mine reclamation in Alberta and British Columbia, Canada (Smyth and Dearden), 275-95
- The badlands of Italy: a vanishing landscape? (Phillips), 243-57
- Benenson, I. *et al.*, Analysis of economic networks: geographical information systems as a visualization tool, 117-35
- Colten, C. E., Groundwater contamination: reconstructing historical knowledge for the courts, 259-73
- Coping mechanisms practised by drought victims (1994/5) in North Bengal, Bangladesh (Paul), 355-73
- Effects of sense of place on responses to environmental impacts: a study among residents in Svalbard in the Norwegian high Arctic (Kaltenborn), 169-89
- Estimation of megacity growth: simple rules versus complex phenomena (Schweitzer and Steinbrink), 69-81
- Evaluation of vegetative criteria for near-surface groundwater detection using multispectral mapping and GIS techniques in semi-arid Botswana (Ringrose *et al.*), 331-54
- Forest conversion, conservation and forestry in Cross River State, Nigeria (Ite and Adams), 301-14
- The geography of disaster vulnerability in megacities: a theoretical framework (Uitto), 7-16
- Greenberg, M. *et al.*, Socioeconomic impacts of US nuclear weapons facilities: a local-scale analysis of Savannah River, 1950-1993, 101-16
- Groundwater contamination: reconstructing historical knowledge for the courts (Colten), 259-73
- Gupta, A. and Shah, H. C., The strategy effectiveness chart: a tool for evaluating earthquake disaster mitigation strategies, 55-67
- Hazards in changing cities (Mitchell), 1-6
- Herbert, D. T. and Thomas, C. J., School performance, league tables and social geography, 199-223
- Isserman, A., *see* Greenberg, M.
- Ite, U. E. and Adams, W. M., Forest conversion, conservation and forestry in Cross River State, Nigeria, 301-14
- Kakhandiki, A. and Shah, H. C., Understanding time variation of risk: crucial implications for megacities worldwide, 47-53
- Kaltenborn, B. P., Effects of sense of place on responses to environmental impacts: a study among residents in Svalbard in the Norwegian high Arctic, 169-89
- Kropp, J., A neural network approach to the analysis of city systems, 83-96
- Krueckeberg, D., *see* Greenberg, M.
- Large-scale variations in radial tree growth in Norway: an application of median polish for spatial trend detection (Strand), 153-68
- Lowrie, K., *see* Greenberg, M.
- Marginality and vulnerability: why the homeless of Tokyo don't 'count' in disaster preparations (Wisner), 25-33
- Matheson, W., *see* Ringrose, S.

Index

- Mayer, H., *see* Greenberg, M.
- Mitchell, J. K., Hazards in changing cities, 1–6
- Monitoring vegetation dynamics in semi-arid African rangelands: use and limitations of Earth observation data to characterize vegetation structure (Trodd and Dougill), 315–30
- A neural network approach to the analysis of city systems (Kropp), 83–96
- Palm, R., Urban earthquake hazards: the impact of culture on perceived risk and response in the USA and Japan, 35–46
- Participatory planning and ethnic interaction in Ma'alot–Tarshiha, a Jewish–Arab community (Shmueli and Kipnis), 225–41
- Paul, B. K., Coping mechanisms practised by drought victims (1994/5) in North Bengal, Bangladesh, 355–73
- Peterson, J. A., *see* Apan, A. A.
- Phillips, C. P., The badlands of Italy: a vanishing landscape?, 243–57
- Probing tropical deforestation: the use of GIS and statistical analysis of georeferenced data (Apan and Peterson), 137–52
- Ringrose, S., Vanderpost, C. and Matheson, W., Evaluation of vegetative criteria for near-surface groundwater detection using multispectral mapping and GIS techniques in semi-arid Botswana, 331–54
- Schnell, I., *see* Benenson, I.
- School performance, league tables and social geography (Herbert and Thomas), 199–223
- Schweitzer, F. and Steinbrink, J., Estimation of megacity growth: simple rules versus complex phenomena, 69–81
- Shah, H. C., *see* Gupta, A.; Kakhandiki, A.
- Shmueli, D. F. and Kipnis, B. A., Participatory planning and ethnic interaction in Ma'alot–Tarshiha, a Jewish–Arab community, 225–41
- Simon, D., *see* Greenberg, M.
- Smyth, C. and Dearden, P., Attitudes of environmental management personnel involved in surface coal mine reclamation in Alberta and British Columbia, Canada, 275–95
- Social geography and disaster vulnerability in Tokyo (Takahashi), 17–24
- Socioeconomic impacts of US nuclear weapons facilities: a local-scale analysis of Savannah River, 1950–1993 (Greenberg *et al.*), 101–16
- Sofer, M., *see* Benenson, I.
- Sorenson, D., *see* Greenberg, M.
- Steinbrink, J., *see* Schweitzer, F.
- Strand, G.-H., Large-scale variations in radial tree growth in Norway: an application of median polish for spatial trend detection, 153–68
- The strategy effectiveness chart: a tool for evaluating earthquake disaster mitigation strategies (Gupta and Shah), 55–67
- Takahashi, S., Social geography and disaster vulnerability in Tokyo, 17–24
- Thomas, C. J., *see* Herbert, D. T.
- Trodd, N. M. and Dougill, A. J., Monitoring vegetation dynamics in semi-arid African rangelands: use and limitations of Earth observation data to characterize vegetation structure, 315–30
- Uitto, J. I., The geography of disaster vulnerability in megacities: a theoretical framework, 7–16
- Understanding time variation of risk: crucial implications for megacities worldwide (Kakhandiki and Shah), 47–53
- Urban earthquake hazards: the impact of culture on perceived risk and response in the USA and Japan (Palm), 35–46
- Vanderpost, C., *see* Ringrose, S.
- Winter mortality risk for American ginseng (*Panax quinquefolium*) in Saskatchewan (Archibold *et al.*), 375–95
- Wisner, B., Marginality and vulnerability: why the homeless of Tokyo don't 'count' in disaster preparations, 25–33
